

# ER200 HEADSET

Hear and be heard clearly.

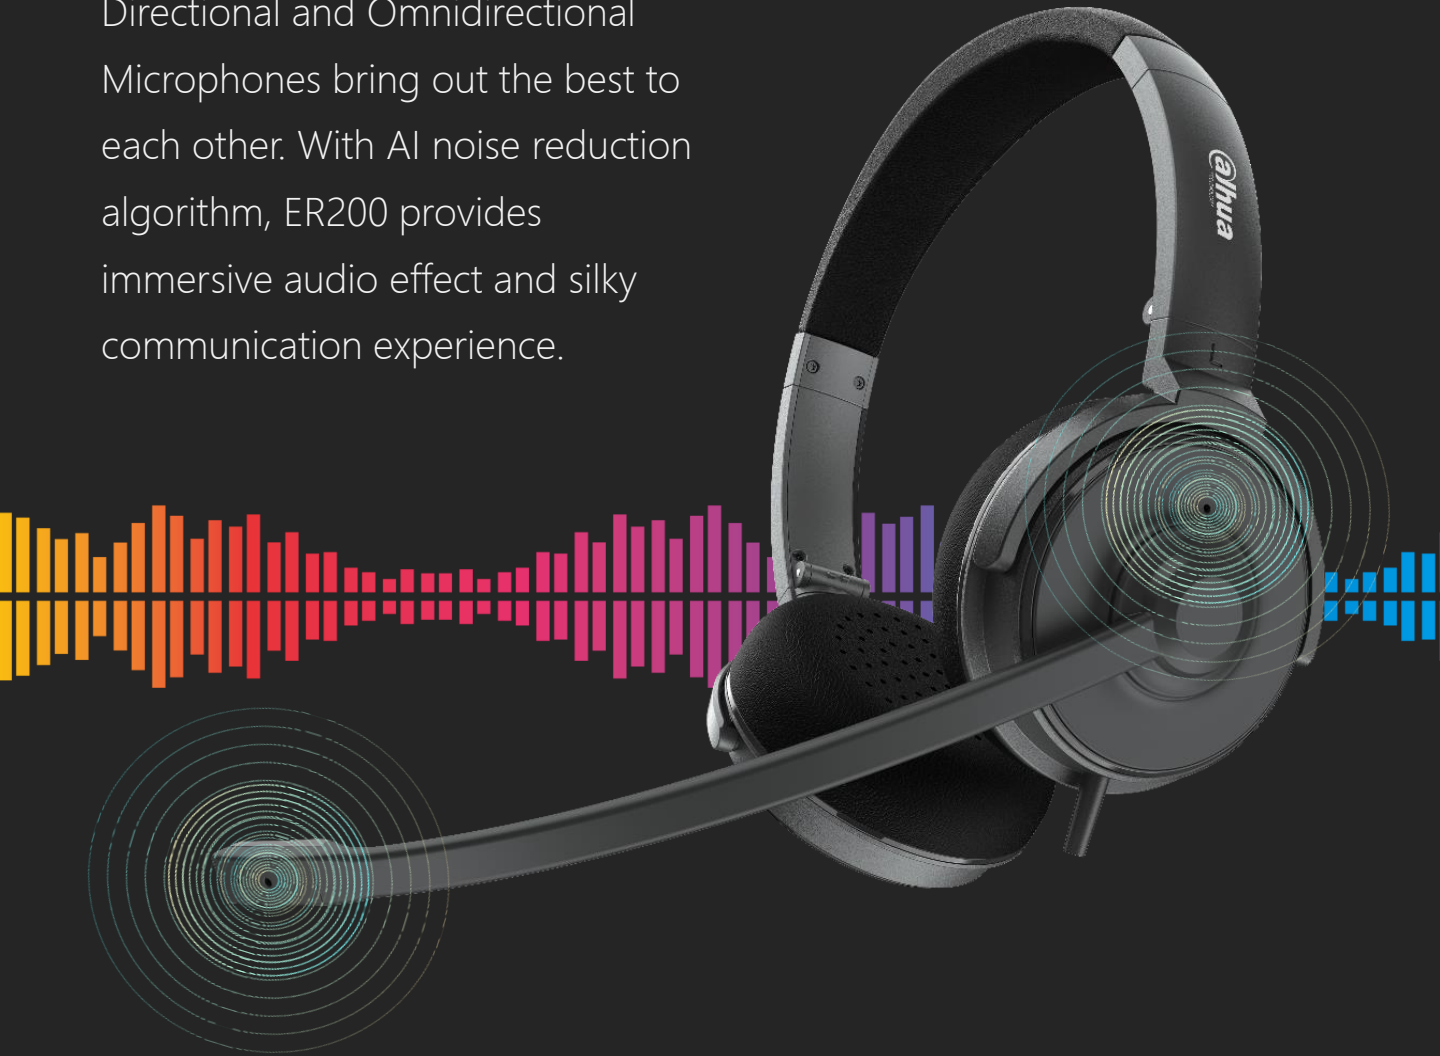

Dual Mics | AI Noise Reduction | In-line Control | Plug & Play

# Dual Mics AI Noise Reduction

Directional and Omnidirectional Microphones bring out the best to each other. With AI noise reduction algorithm, ER200 provides immersive audio effect and silky communication experience.

## Convenient in-line Control

Users can easily control the voice on the buttons of the cable, include volume up/down, answer/hang up & mute buttons. Without turning on the computer or the software to adjust the functions, the in-line control directly change the mode.

## Comfortable Wearing Experience

150° pivoting boom mic, users can adjust the position anytime. Soft ear cushion and leather headband, both of them eliminate the discomfort of long-term wear.

# High Compatibility

Plug & play without driver installation, people can immediately use the device on their laptops. Moreover, ER200 is compatible with most popular platforms, ensure the smooth experience.
