Product Benefits

Sealed to IP67
Resettable Tiple pole
Dual-Colour indication(Red and Green)
12--24VDC

BUZZER
Unique Plug & Playinstallation concept
Anti-Tamper facility

Overview

The outdoor STP-CP3-LSRC-WP is an IP67 sealed manual call point product. The enhanced environmental protection allows the unit to be installed in many external environments where water and dirt are likely to be present, making it a true waterproof and outdoor product.

The STP-CP3-LSRC-WP is a triple pole resettable breakglass designed for emergency use only. Upon activation of the resettable panel, power is permanently removed to the electronic locking device thus ensuring the door remains unlocked allowing free egress. The breakglass is equipped with visual and audible indicators ensuring re-assurance once the breakglass has been activated. The breakglass is supplied with a test key for periodical testing and a protective clear cover to assist with preventing accidental use.

Equipped with visual and audible indicators

Technical Data

Power supply	DC12V--DC24V
Operation current	DC12V/18mA(Standby by)/75mA(Operation) DC24V/11mA(Standby by)/41mA(Operation)
